# TOP 10 TELEMEDICINE PERFORMERS

CTN is pleased to recognize the top 10 performing CTN telemedicine activity sites based on self reporting through the Project U survey from March through July 2014. Thank you to all the sites that continue to participate in the survey on a monthly basis.

CTN keeps all site specific information confidential and uses the information in aggregate to better inform CTN funding agencies, elected and public policy officials about actual telemedicine trends. If you are a CTN member site, please participate in the Project U survey which can be found at: [www.caltelehealth.org/project-u](http://www.caltelehealth.org/project-u).

## Congratulations to the Top 10 Sites!
